## **Social Life and the Renewal of the Anthroposophical Society with Robert Karp, M.Ed.**

Founder and director of New Spirit Farmland, facilitating partnerships with social impact investors; also serving as executive director of the Biodynamic Association and Practical Farmers of Iowa.

Embedded in the Christmas Conference lay profound social mysteries and impulses. Realizing this potential, requires us to call forth new capacities for working with the spiritual world & with our fellow human beings in community life. The Friday talk will seek to shed light on these mysteries, & on Saturday morning we will practice social-artistic exercises designed to help awaken & strengthen our capacity for spiritually conscious group work.

**\$15 MORE** or less per session,
