**Freeing the Soul from Etheric Egotism, a Pentecost Imagination**

Zoom presentation by Lynn Jericho. She will speak on Freeing the Soul from Etheric Egotism, a Pentecost Imagination. This presentation will look at the soul's imprisonment in the egotism rising up from the etheric body and how we recognize and overcome the resulting astrality. Etheric egotism and astrality are the causes of personal distress and social discord. They prevent freedom and love from awakening in our souls.

**What is an "Electron"?** Zoom presentation by Johannes K uhl, Switzerland,

Dornach, Goetheanum, Natural Science Section of the Free School of Spiritual Science.

If we hear the question „What is an electron?" most of us will think of a small particle with negative electric charge - and so on. It's interesting though that for the physicist it is much more difficult to answer the question what it really is. - For a scientist with anthroposophical interest it is then a challenge to find out how to approach this question: Is there a Goetheanistic approach? And an anthroposophic approach? - In this lecture we will try to explore this question, probably without a definite answer.

The event is organized by the program committee of the Chicago Rudolf Steiner Branch.
