April 13—27, 2019

The Knights Templar are well known for their activities in Jerusalem and the Holy Land in the Middle Ages following the First Crusade. Their demise in 1307 is also well known. What is not so well known is the belief that their activities in Portugal, working with Bernard of Clairvaux and Portuguese Templar Kings over several generations, formed a Kingdom of Conscience with laws that are echoed in Rudolf Steiner's Threefold Social Order. Their history is profound in Portugal and we will visit some major sites in the country. Our guides are deeply knowledgeable about the Templars and their history.
