

# Artificial vs. Michaelic Intelligence

*Michaelmas Festival with Corps de Michael*

Michaelmas Eve, Saturday, 28<sup>th</sup> September, pm

Stonehaven, Hershey, Pennsylvania USA

As the Michaelmas season draws near, we experience the rapid deployment of Artificial Intelligence in everyday life. From 'smart' gadgets to GPS, Siri, automated banking, and social media marketing, Artificial Intelligence stands poised to radically transform business, industry, and human interaction. At present, however, AI appears to lack “non-conscious and sub-symbolic intuitions or tendencies in the human brain (Dreyfus and Dreyfus, *Mind Over Machine*). While early AI was modeled on step-by-step deduction, “most humans solve problems using fast intuitive judgments” (Wason and Shapiro, *New Horizons in Psychology*).

Is a snap intuitive judgment synonymous with intuitive thinking as defined by Rudolf Steiner's seminal work, *The Philosophy of Freedom* (also translated, *Intuitive Thinking As a Spiritual Path*)? If not, what is intuitive thinking and how can it lead to **Michaelic Intelligence**? How is Michaelic Intelligence related the Spirit of the Present Age—*Michael*? Although the algorithms, data mining, information engineering, and reinforcement learning of AI promise great returns in efficiency and corporate profits, can AI yield the wisdom, intuitive thinking, social harmony, and humility of Michaelic Intelligence? Will Artificial Intelligence, Michaelic Intelligence, or some combination thereof, usher in the Philadelphia Community (Sixth Epoch) named in both Anthroposophy and the *Book of Revelation*?

The festival keynote, **Artificial vs. Michaelic Intelligence** with David Lenker will be followed by conversation on the theme, music, and a Michaelmas Potluck. Festivities will culminate at dusk with a Michaelmas Bonfire-on-the-Meadow commemorating the 60<sup>th</sup> Anniversary of the first harvest following the inauguration of Stonehaven's organic mission on 9<sup>th</sup> September 1958. Additionally, the Bonfire will celebrate Stonehaven's current organic farm partnership grazing Jersey heifers for an organic raw milk dairy serving Hershey and nearby communities. **For information call: 717-964-3376 or visit**
