

# **18th Annual AWME Summer Music Conference in East Troy, Wisconsin**

**Sponsored by the Association for Waldorf Music Education  
<http://waldorfmusic.org/news-events/>**

**with guest presenter Christiaan Boele  
Michael Fields Agricultural Institute  
July 9-14, 2017**

The Association for Waldorf Music Education is very pleased to have the opportunity this summer of 2017 to host our annual summer music conference with master teacher, Christiaan Boele in beautiful southeastern Wisconsin, at the Michael Fields Agricultural Institute in East Troy, Wisconsin from Sunday afternoon, July 9 through Friday morning, July 14.

**For music teachers, early childhood and class  
teachers, parents, and administrators**

**ALL are welcome!**

## **Singing as a New Means for Self-Education**

**Founding a new musical culture as an answer to the needs of our time**

**Christiaan Boele** brings his vast knowledge and expertise in the Werbeck method of singing and voice work to our summer conferences in 2017! Christiaan travels around the world from his home in Europe, giving trainings, workshops and classes that focus on the proper use of the voice, its potential, and its healing power in

our lives. He has trained with those who studied with famed vocalist, Valborg Werbeck-Svärdström herself (who worked with Rudolf Steiner), and has for many years, continued this approach to healthy singing and voice work that according to Steiner, can offer a major contribution to the future evolution of humanity.

**During the conferences, Christiaan will be available during the week to offer individual 45-minute voice lessons to participants wishing to deepen their own personal voice work for a fee of \$65 per lesson. Cash only will be accepted, and will be paid to Christiaan directly at the time of the lesson. If you are interested, please note this when you register, or as soon as possible during the conference, as these slots will fill up fast! His cancellation policy requires that if someone cancels, for any reason, he expects payment for the full cost of the lessons. The ONLY exception is if you are able to find another person to take your lesson time!**

During the conference, we will also be covering many other topics of interest such as: instrumental music in the Waldorf curriculum, specific grade-related repertoire and activities (songs, movement, games, etc.), and Spatial Dynamics. There will be an evening of music presentations we have worked on together, and/or individually, to share with one another and the larger community.
